

**To:** 30 Year Rule Review Secretary  
**Subject:** Dunblane massacre Inquiry

The fact that publishing the above inquiry findings was originally banned for 100 years then after protest eventually published in an edited form with the rest held under the 30 year rule shows how convoluted the whole business has become.

It would also be interesting to have clarified as to when the 30 year rule comes in -is it from when documents become **known** to be held in the archives or when they are dated at the outset.
